

CHINA APPEARS VERY ANXIOUS

Gives Official Notification To The Powers That Her Position Is Stated.

AFFECTS BOTH RUSSIA AND JAPAN

Pekin Government Demands That It Receive Recognition At The Coming Peace Conference In Washington.

Washington, July 21.—China's official notification to the powers that she will not recognize any arrangement regarding Manchuria concerning which she has not been consulted beforehand has reached Washington and will be forwarded to the president at Oyster Bay. The same notification has gone to St. Petersburg and Tokio. The communication is so expressed that it calls for no reply.

The note disposes of the recent report that China had requested that she be allowed to participate in the conference.

China has not yet taken this step for several reasons. The government is anxious that the belligerents be allowed to negotiate directly with each other and is adverse to being forced into the negotiations. She wishes also to remind Russia and Japan that she never acquiesced in the alienation of Manchuria from Chinese sovereignty, and that she expected, as the result of the war, the restoration of Chinese control of that province.

Statesmen Make Answer.

Before sending this notification the Chinese government addressed to its viceroys, governors, and diplomatic representatives abroad a long list of questions about Manchuria, asking their opinions regarding the steps the government should take to insure its restoration to China. All these replies agree that this restoration should be made unconditionally. It was also suggested that China immediately declare open to the world's trade several additional ports in Manchuria.

TRIES SUICIDE IN ATTORNEY'S OFFICE

Woman Mixed Up in the New York Murder Case Tries To Take Her Life

[SPECIAL BY SCRIPPS-M'RAE.] New York, July 21.—After having been cross-examined by Inspector Cross, Eleanor Van Deventer, Fredrick E. Carleton's mistress, made an attempt to commit suicide today by trying to jump from a window in the inspector's room at police headquarters in Brooklyn. She was prevented from doing so by Cross. The woman was arrested at the instance of Anthony Comstock charged with the violation of a section of the penal code forbidding the exposure or sale of photographs. The authorities believe the woman will tell the facts of sensational interest concerning the man suspected of poisoning Carleton's wives. Carleton was arraigned today in Brooklyn charged with larceny.

AUTOMOBILE FATAL TOWEALTHY PEOPLE

Terrible Accident in Los Angeles, California, Last Evening—One Man Killed.

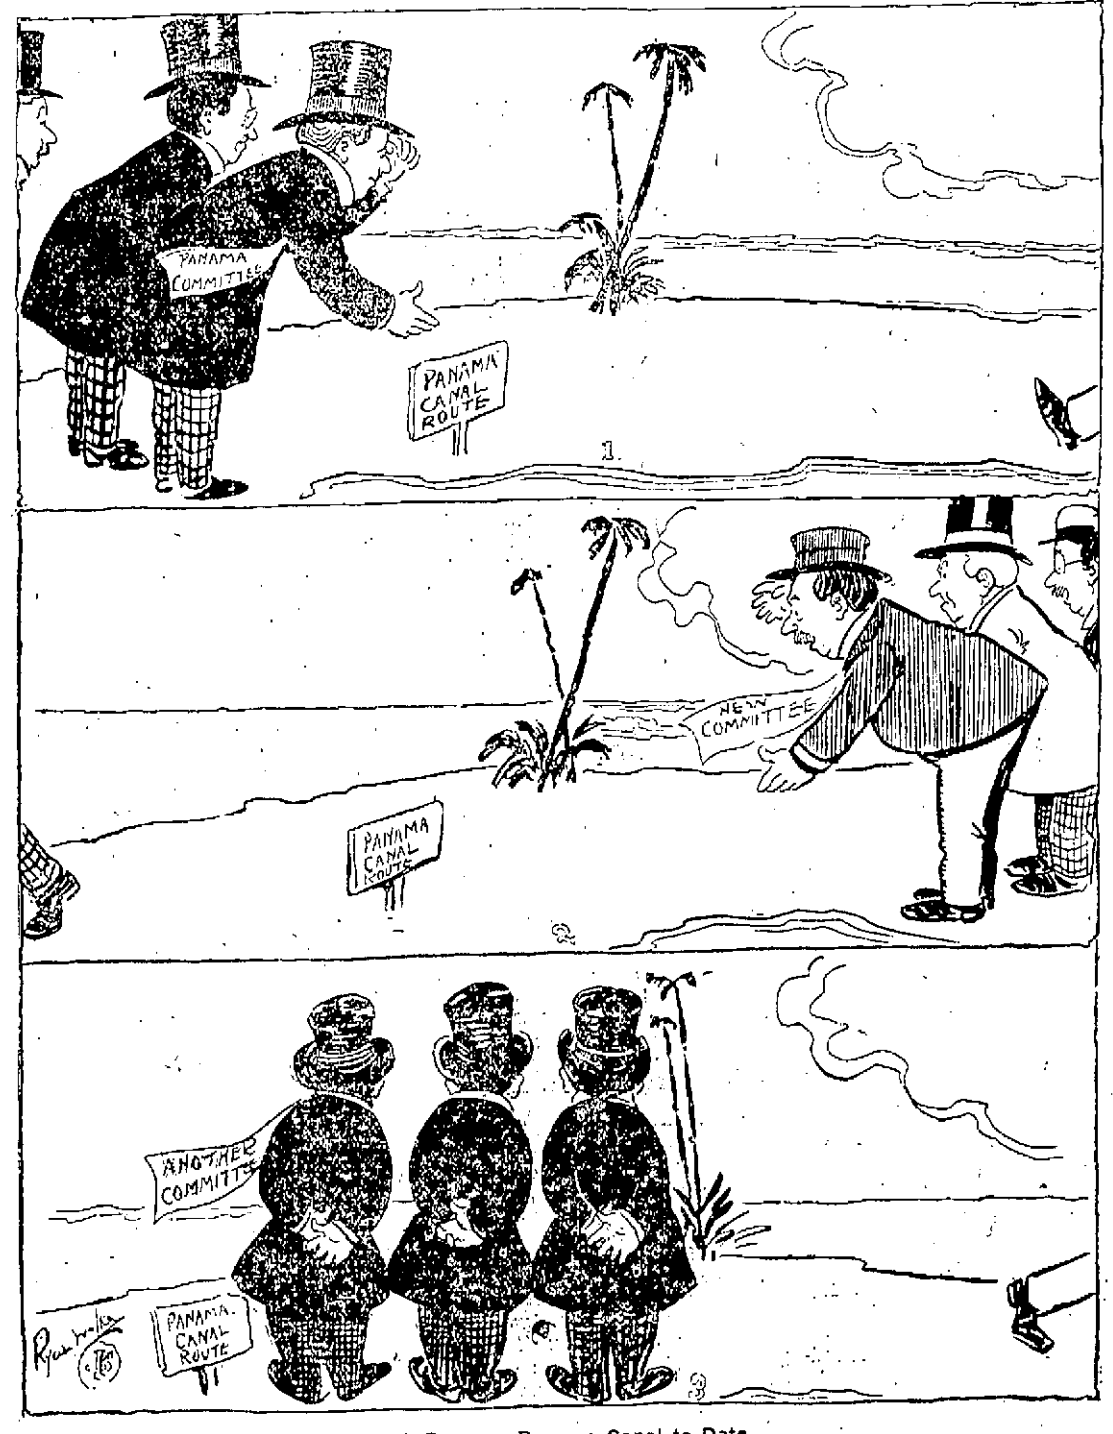

[SPECIAL BY SCRIPPS-M'RAE.] Los Angeles, Cal., July 21.—M. T. Hitchcock, the well-known millionaire plow inventor and manufacturer, is dead, and his wife, son and daughter were seriously injured, as a result of an automobile accident last night. The machine was traveling forty miles an hour on Main street when the car crashed into a buggy, swerved and hit a pole, throwing the occupants to the street. J. Saul, the driver of the buggy, was also seriously injured.

ROOSEVELT AND ROOT HOLD A CONFERENCE

Questions as to the Panama Canal and the Coming Peace Conference Discussed.

[SPECIAL BY SCRIPPS-M'RAE.] Oyster Bay, July 21.—President Roosevelt was in conference this morning with Secretary of State Root, who was accompanied from New York by Dr. Lyman Abbott, who will remain until after luncheon. Root will remain over night. Among the questions discussed is the proposed transfer of the Panama canal from the jurisdiction of the war to the state department and the details of the peace conference.

Mr. J. P. Withrow, a merchant of Hollis and Ellenboro, N. C., proposes to build a church by the redemption of tobacco tugs. He calls upon every tobacco chewer in America to aid him in the work.

WILD STAMPEDE FOR THEIR OLD PLACES

Teamsters Seek Reinstatement by Their Former Employers at Once.

[SPECIAL BY SCRIPPS-M'RAE.] Chicago, July 21.—Following the calling off of the teamsters' strike by the teamsters' joint council the strikers broke ranks today in a wild stampede for work. In most cases the conditions imposed by employers was hiding the union buttons. Of the 5,000 men who quit probably not more than fifteen hundred will be taken back within the next few days. The employers held a meeting today and adopted rules to govern the conduct of the employees, which will be the conditions on which the strikers are taken back. The strike cost twenty-one lives, fifteen million dollars in money, and five hundred were injured in rioting.

JAP WAR SHIPS ARE NEARING FORTRESS

Inhabitants Fleeing in Fear of a Japanese Invasion at Once.

[SPECIAL BY SCRIPPS-M'RAE.] Copenhagen, July 21.—A dispatch from St. Petersburg states that Japanese warships have been sighted near Nikolavsk at the mouth of the Amur river. Many inhabitants are fleeing.

RUSSIAN DEFEAT IS OF MUCH IMPORTANCE

Czar's Troops Were Well Positioned and Had Strong Force of Artillery.

[SPECIAL BY SCRIPPS-M'RAE.] Tokio, July 21.—It is officially announced that four hundred and sixty-one Russian soldiers on the island of Saghalien, together with fifteen officers, have surrendered to the Japanese.

Aldenborg of Green Bay, and William Mauche of Fond du Lac. The factory of the Nebraska Casket company of Hartford will be moved to Fond du Lac.

JAPAN MAY WANT RATIFICATION OF RUSSIAN MASSES

Remored That Threatened Change of Government in the Land of the Czar May Cause Odd Demand on Peace Treaty.

[SPECIAL TO THE GAZETTE.] St. Petersburg, July 21.—M. Muraviev and suit left here today for Washington, where he is to be one of the envoys from Russia in the peace commission. The Slovo severely criticizes the selection of M. Muraviev, declaring that he has neither the ability nor the temperament to conduct great negotiations. It is generally understood here that his selection was extremely distasteful to Foreign Minister Lamsdorf, and that it was the emperor's personal act. Among the Liberals a story has been circulated and believed, that Japan, at the Washington peace conference, will demand that the treaty of peace, if concluded, shall be submitted for the ratification of the Russian people, in order to insure its observance in case of a change of government.

RETURNED EXILE TALKS ON FRANCO-GERMAN AFFAIRS

Paul Deroulede, the Notoriety Loving French Patriot, Thinks England and France Should Be Best of Friends.

[SPECIAL TO THE GAZETTE.] Paris, July 21.—There is every indication that the notoriety-loving patriot, Paul Deroulede, who returned here today from exile, is destined to become the man of the hour in France within the next few weeks. Speaking of the Franco-German situation, he says: "I think a Franco-German rapprochement eminently desired by Germany. She possesses continental military supremacy. Great Britain possesses maritime supremacy. Whenever on leaving Great Britain, we go over to Germany we should be giving her together with the support of our fleet, the markets of our colonies, the aid of our money and the help of our trade. Now for my part I should just as soon that there should continue to be two preponderant nations in the world; one on land and one on sea, and I see no necessity for procuring for Germany a triumph that would put into her hands alone two forces before which other nations would be of no account. I am hostile to a Franco-German understanding because it is favorable to German interests."

BALFOUR LOST ON CLOSE VOTE

Irish Land Bill Defeated In The English Parliament By Three Votes Exactly.

THE CABINET IS LIKELY TO REMAIN

Loyalist Expect Vote On Motion For Resignation To Demonstrate That House Of Commons' Act Was A Mistake.

[SPECIAL BY SCRIPPS-M'RAE.] London, July 21.—Amid screams of intense excitement the Balfour government was defeated in the house of commons at midnight Thursday on a motion to reduce the membership of the Irish land commission. The vote stood 199 in favor of the amendment and 196 against it.

On announcement of the vote the liberals and Irish members cheered, the latter yelling "Resign!"

The incident is considered hardly of sufficient importance to justify the government in resigning, but when asked by Sir Henry Campbell-Bannerman, leader of the opposition, what course he intended to pursue Premier Balfour declined to make a statement.

John Redmond, leader of the Irish party, said the premier repeatedly had declared that he would resign if defeated. "Was he going to swallow this humiliation, as he swallowed every other humiliation during the last few years, the premier was asked by Mr. Redmond.

Balfour Makes Reply. Mr. Balfour replying with his accustomed coolness, said Mr. Redmond had greatly agitated himself over a matter which could be settled in due time. He was, he said, not conscious of any humiliation. The premier said he would consult his colleagues as to whether the question would be again submitted to a vote, and would make a statement later.

It is practically certain the government will neither resign or dissolve parliament. Sir Edward Grey's motion of censure on the government regarding the fiscal question will be discussed on Monday, and the ministerialists argue that its rejection will prove that the government still possesses the confidence of parliament.

AWFUL ACCIDENT TO GOVERNMENT VESSEL

Gunboat Bennington Reported to Have Blown Up in San Diego Harbor.

[SPECIAL BY SCRIPPS-M'RAE.] San Diego, Cal., July 21.—The boiler of the gunboat Bennington, lying in the harbor, exploded at ten-thirty o'clock this morning. The entire ship was blown up. The first reports stated that sixty men were killed and over a hundred injured. Dozens of the dead and injured are being brought ashore.

Capt. Young reports that every man on the ship was wounded. Between forty and fifty are killed. The ship rapidly settled after the explosion and is now being towed to the wharf by tugs. Every available wagon is at the water front to receive the injured and take them to the hospitals. Seven of the dead are at the morgue.

RECEIVE WIRELESS FROM JONES FLEET

Will Arrive on Chesapeake Bay on Saturday with Remains of the Late Admiral.

[SPECIAL BY SCRIPPS-M'RAE.] Newport, R. I., July 21.—The government torpedo station here received a wireless message from the squadron of warships conveying the remains of Paul Jones from France. The message states the squadron will arrive at Chesapeake cape Saturday morning. There are no incidents on the passage.

BALFOUR EXPECTS TO WIN OUT ON MONDAY

House of Commons Adjourns Until Monday—Much Question as to the Outcome.

[SPECIAL BY SCRIPPS-M'RAE.] London, July 21.—After a half hour's session this morning the House of Commons adjourned until Monday to await the government's decision regarding the future course in view of the defeat of the ministry last night on the bill to reduce the appropriation for the Irish land commission. It is believed in well-informed circles the Balfour ministry will not resign and that the government will be sustained by a normal vote on Monday.

JANESVILLE MEN PLAY VERY WELL

THREE WERE AMONG THE FIRST
SIXTEEN HIGH MEN.

MORSE IN CONSOLATIONS

Mississippi Golf Club Might Have
Next Year's Tournament Here
If They Desired It.

Janesville was well represented in the state golf tourney at La Crosse. Schaller, Brownell and McGiffen all qualified in the first sixteen for the championship honors, Schaller being third, Brownell fourth and McGiffen sixth on the list. Morse was entered for the consolation flight and later in the day won his match with Pettit. Sutherland was also in the consolation flight but lost his game with Morris. Schaller lost to Vose of Milwaukee one up in nineteen holes; Brownell lost to Yule of Kenosha six up and five to play; and Hewitt of Oshkosh won from McGiffen five up and three to play. The contests were all exciting and the Janesville men are spoken of in the dispatches as game losers.

Might Come Here
The Mississippi Golf club might have the pleasure of entertaining the state championship contests next year if they wanted to is the talk that is current about the La Crosse hotels and on the links. The players remember Janesville's links with pleasure and would like to have another opportunity of playing here. Milwaukee has two clubs, both of whom want the tournament, and it is possible that the Blue Mounds Country club may be selected.

The Scores
Champion Cavanagh took the cup for low score on the qualifying round with an 85, one above the course record. He scored a 40 on his second round, two under par with an 8 on a bogey six holes. The scores:

VETERANS ENJOYED A DELIGHTFUL DAY

Annual Picnic of Janesville, Beloit,
and Rockford G. A. R. Will Not
Soon Be Forgotten.

Perfect weather and appointments that could scarcely have been improved upon conspired to make the annual picnic of the Janesville, Beloit and Rockford Grand Army posts and their friends at Ho-No-Ne-Gah park yesterday a grand success in every particular. Some two hundred left Janesville in the morning, carrying well-filled lunch-baskets and prepared for the good time in store for every one. By noon many hundreds had congregated under the trees and the pleasant task of preparing the picnic luncheon had commenced. At one o'clock the Rockford fife and drum brigade, assisted by H. M. Weaver of Janesville, sounded the call for the meeting at the main hall where the program of addresses was about to be inaugurated. Colonel Lawler of Rockford, marshal of the day, welcomed his comrades, their families, and friends in characteristic fashion, and spoke briefly of the not-to-be-forgotten events of the sixties which had bound together in close fraternity that was to endure as long as life should last, the men he saw before him. He praised the brave colonel of the Eighth Wisconsin—Col. W. B. Britton of Janesville—who, though not in the best of health attended the picnic with his wife and occupied a place on the speakers' platform. When called upon to speak Col. Britton assisted to the front of the platform and delivered a patriotic address which was received with prolonged cheers and the waving of handkerchiefs. Hon. Phil Chase of Rockford gave a stirring half-hour talk filled with graphic description of the days of war and eloquent tributes to the brave women who then and since had borne their hard sacrifices without complaint. The noble band of women composing the Relief Corps had been a tower of strength in upholding the true spirit of the G. A. R. The Rockford Lobster quartette was present with the exception of one singer. Col. Kimberley, who was on the program for several songs, was also present but unable to respond on account of illness. The pilgrimage homeward did not begin until the shadows had commenced to fall. Then everyone coupled the parting word with praise for the excellent management of Messrs. Harlow, Kimberley, and Bear who had the arrangements, including the weather, in charge.

**CLEVER DODGE THAT
CATCHES THE PEOPLE**
Watch Out for the Check Operator
is the Warning Sent From
Washington.

A circular from the detective bureau at Washington, D. C., in which attention is drawn to a worthless check operator has been received. The same is a warning to Janesville merchants. Part of it follows:
"His scheme is to rent a room, or desk room, and apparently start the installment business; having cards printed on which he claims to sell watches, jewelry, clothing, etc., on weekly payments. He will then make a small deposit in a local bank and call upon jewelers and other business men, present his card, and represents that he has just started in business and has a customer for several low-priced articles, which he purchases and gives a check in payment. These checks are paid, and after several high-priced articles, gives a check in payment and when presented to the bank the following morning it is learned he has withdrawn his account and left the city."

**LINE-UP FOR THE
BASEBALL GAME**
To Be Played by Clinton and Janesville K. of P. Teams in This
City Tuesday.

The Janesville Pythian baseball team will make an effort on Tuesday afternoon to retrieve itself for the defeat at Clinton a few weeks ago. The game will be played at Athletic park and a big delegation from Clinton will be on hand to root for the visiting nine. Palmer and Broughton will be the battery for Janesville. The line-up arranged is as follows:
Clinton. Broughton
Hues. Palmer
Gates. Oestreich
Miller. Johnson
Mayhew. Skelly
Barrus. Levy
Bennett. Stevens
Ende. Myhr
Beir. Kline

**FELL FROM LOAD
ONTO A HAY-FORK**
John Cunningham of Town of Har-

Accident Yesterday.

While at work unloading hay on the Douglas farm, eight miles from this city yesterday, John Cunningham, son of William Cunningham of the town of Harmony and a nephew of Atty. John Cunningham of Janesville, fell from the wagon onto the prong of a hay-fork which penetrated his bowels. So terrible was the young man's agony that he fainted while being carried to the house. Dr. James Mills was called and worked over the sufferer for some time. If blood poisoning does not set in it is possible that he may recover.

GRAY TEAM FROM ROCKTON MISSING

Horses Hired at G. M. Stevenson's
Livery on Saturday Believed To
Have Been Stolen.

Search is being made for a gray driving team which was hired at G. M. Stevenson's livery at Rockton last Saturday and has not since been seen or heard from by the owner. The man who secured the team represented himself as a collector for the Fairbanks-Morse Co. of Beloit, but when suspicion was aroused and inquiry made at the office of the company it was learned that they had no collectors in that locality. It is believed that the stranger went toward Rockford and that it was his deliberate purpose to steal the team.

FASHION NOTES

While all of the pale tints are con-
sidered comme il faut for house wear,
a decided preference is shown for
white and green, which are used sepa-
rately and in combination to make
charming negligees, petticoats, nati-
ness, etc. There are some smart wo-
men who go to the extreme of having
each season their boudoirs refurnished
in a color that will blend with the
tints of their boudoir robe, thus en-
hancing their own personal charms.
While such a caprice is out of the
province of the average woman to in-
dulge, still it is responsible for a
number of charming modes which can
be copied with delightful results.
One may run the gamut of extra-
vagance in the matter of petticoats. By
all odds the most beautiful to wear
with thin gowns are the hand-
embroidered batiste petticoats, which
come in all colors. They are as ex-
quisite as human ingenuity can make
them and many are of almost fabulous
price. The most beautiful of these,
however, can be imitated in soft mus-
lin and lawn at very reasonable cost,
and in place of the tedious hand em-
broideries which decorate the genuine
article, there may be quite as effective
appliques of fine embroidery medall-
ions.

Silk skirts, naturally, are as ex-
pensive as the batiste ones, and are
worn more than ever this year. The
jersey top is not new, but it is still
employed almost exclusively in the
making of silk petticoats in order to
insure a perfect fit about the hips.
Some of the latest designs have series
of narrow flounces running from the
hem to the knees, while another popu-
lar pattern is the flounce trimmed
with many crisply pinked ruffles
standing out in jaunty fashion.

While taffeta petticoats are the
acme of elegance. One shown in a
window of the rue de la Paix, is
trimmed with a quantity of pale cerise
Valenciennes lace in an effective shell
pattern. The motifs of the lace are
made to form an irregular edge of the
top of the flounce, and are repeated at
the bottom making a really gorgeous
effect.

That perpetual enhancer of wom-
an's charms, the tea-gown, is certainly
shown at its best this season. It is
indeed a self-sacrificing woman who,
wearing such confections, can con-
fine herself within the walls of her
boudoir, for it seems that all the
world should catch a glimpse of such
consummate loveliness. An original
idea is shown in a design of dotted
suisse, the dots being interspersed
between dainty patterns of embroi-
dery. There is an abbreviated yoke,
too long for an Empire, yet it fell
several inches short of the girdles of
delicate green ribbon which encircles
the waist loosely. Finishing the neck
is a round collar formed of bands of
deep cream and pure white thread lace.

The skirt, from the yoke, hangs in
narrow side plaits, stitched to the
waistline. Above the deep flounce at
the bottom, there are inset diamond-
shaped designs of tucked linen, out-
lined with the two shades of lace in-
sertion.

A pretty tea-gown of green China
silk, with a flounce headed with three
rows of spotted lace insertion and fin-
ished at the bottom with a row of same.
The elbow sleeves are full and much
inserted and a collar of flesh shape is
also generously trimmed with the
same pretty open lace.

Taffeta, peau de soie, peau de
Cygnis, louisine, crepe de Chine and
all this family of elegant silks are
used for making beautiful tea-gowns
and they are trimmed with lace and
embroidery to a high degree. Chiffon
does not seem to hold its wonted
sway here as a smart decoration, al-
though it makes up for the lack in
the lavish way in which it is used on
gowns and wraps.

Maltines and peignoirs follow closely
the trimming and design of tea-
gowns, except, of course, that they are
shorter. They are finished with
stoles and all sorts of fancy shaped
draperies, which take away the old-
fashioned round appearance of their
old-time rivals. A fascinating affair
in apple green silk striped with white
and pale pink is made with a large
square collar inserted and edged with
Maltese lace; the ends of the collar
extending down the front and half the
width of the elaborate petticoat with
which the maltinee is worn. The

slaves are very short, with wide
square-shaped, frills of lace insertion,
and edging, separated by a narrow
band of the silk.

What Is Piano Tuning?
You have noticed the piano-tuner
tighten and loosen the strings of the
instrument and drum on the keys to
catch the correct quality of tone.
This is only a part of the work,
however. It is just as necessary that
he be a mechanic and thoroughly
conversant with the action and var-
ious parts of a piano. The two are
absolutely necessary to the success-
ful piano expert. I guarantee my
work.

TRY TO LOOT AN EXPRESS CAR

Box of Silverware Thrown From Train Drops Before Honest Man.

Pittsburg, Pa., July 21.—Pennsylvania railroad officials are investigating what appears to have been an attempt to loot an express car on the fast western express. H. G. Darsie, a prominent citizen of Sewickley county, was walking a mile below his home by the railroad track when a box of silverware fell at his feet. It proved to be most valuable. Mr. Darsie saw the box coming from the open door of an express car as the train flew past, but cannot say positively that anyone threw it. The silver was worth several hundred dollars. Mr. Darsie saw two men run away as the box fell at his feet.

Indian Centenarian Is slain.

Arlington, Wash., July 21.—The dead body of Doctor Jim, an Indian aged 106 years, has been found under the bridge of the Darrington branch of the Northern Pacific, three miles from Arlington, with a bullet hole in the back of his head.

Mob Lynches Negro Boy.

Houston, Texas, July 21.—A mob battered down the doors of the new Braunfels jail and lynched Sam Green, a 16-year-old negro boy who attacked the 4-year-old daughter of William Karbach, a German farmer.

College President to Be Pastor.

Cleveland, Ohio, July 21.—The Rev. Daniel F. Bradley, president of Iowa college, Grinnell, Iowa, has been chosen as pastor of Pilgrim Congregational church, to succeed the Rev. Dr. Charles S. Mills.

Lovers' Lament Heeded.

In Wales the Cefn council has erected a foot bridge over a stream in the district. This was because lovers had complained that a favorite walk along the side of the River Deo had been previously rendered uncomfortable, the couples having to wade through the stream.

Coal Fields of Spitzbergen.

The coal fields of Spitzbergen, after experimental mining in previous seasons, have been found of sufficient value to justify more extensive operations. An expedition has been fitted out at Sheffield, England, in which also some Norwegian capital is invested. About seventy men are engaged. It is the intention to erect eleven large buildings to be used for lodgings, sheds for machinery, etc.

THE COAT SWEATER

Both convenient and comfortable are the new shapes in sweaters for the school-girl. While, of course, is a favorite; but there are likewise attractive shapes in all of the becoming colors, with red next in favor. The Norfolk sweater, while not altogether new, is one of the smartest shapes there is, the long straps running over the shoulders and the belt slipped through on the hips rather than around the waist makes for a very pretty effect. The neck is cut out V-shape for coolness and the sleeve is finished with a ribbed cuff.

...Forty Years Ago...

Janesville Daily Gazette, Friday, July 21, 1905.—Recognized.—The Madison Capital says: We hear that the body of Earle, who was shot at Union house night before last, has been recognized by members of Co. B, of the 1st U. S. Artillery. They say he deserted the second day after the Battle of Gettysburg, and was one of the hardest customers in the whole division.

Bodge's Grain and Seed Separator.—One of the most complete things we have ever seen in the way of a grain and seed separator, is now on exhibition in the store on Main street, next to Conrad & Van Kirk's Grocery. It seems to make no difference how many kinds of seed are mixed they are perfectly separated, even dividing No. 1 from No. 2 when farmers should see it to appreciate it.

A War on the Chinich Bug.—While taking a ride on the prairie yesterday we got a new and forcible idea of the chinich bug question. Seeing B. Randall, Esq., at work on the edge of his cornfield, we got over the fence to see what he was doing, and found him engaged in fighting chinich bugs to save his corn. He had run a line of tar about two inches broad across the edge of the field threatened by invasion, from an adjoining wheat field, and at intervals of a couple of rods had dug holes perhaps a foot deep. All along on the outside of the tar line and dropping into these holes the bugs were swarming in myriads. But none of them ventured to cross the tar. When they had congregated in large numbers Mr. R. passed along with a sprinkler of boiling hot water and gave them a drenching which killed them in numbers. If he had killed one we think he had killed a half bushel of the pestiferous nuisances. He was quite sanguine that he would save his corn, and was of the opinion that a man could take care of a hundred acres of grain in that way.

The Mill The Flour and The Bread

The reason for sweet, brown, whole-some loaves of bread on some tables lies in the flour. The reason for clean, pure flour lies in the process of milling. Keep these facts in mind and insist on your grocer giving you

Marvel Flour

It takes less Marvel Flour to bake a dozen loaves of healthful bread than other flour. Marvel Flour makes such good, appetizing bread and pastry you'll always want it.

Ask your grocer for it. If he hasn't it, he'll get it for you.

Platteville Mining Stock For Sale.

I offer for sale 4000 shares of the Hibernia Lead & Zinc Co. mine at Platteville, Wis. This stock is being placed on the market and sold for the purpose of equipping the mine. The Hibernia is one of the leading mines in that district; they have heavy ore and lots of it. Its success is assured.

This mine will be fully equipped and in operation by January 1st. Ore is taken out daily. This stock needs no comment, but sells on its merits. The capitalization of this mine is 28,000 shares; at this low capitalization it will pay large dividends per share.

This stock will be on the market for thirty days; anyone wishing to purchase has an opportunity.

No Time for Mere Lovers.

The world has no time for mere lovers. It wants men who can do things. "Love making," says one, "is the idleness of the busy and the business of the idle." When a youth forgets and takes his eyes from the goal, to become merely a man in love, penning dainty poems to his mistress' eyebrows, soon you will behold him among the idlers and among the failures.

ORGANIZATION IS NEARLY COMPLETE

THE PLANS TO BOOM JANESVILLE MEET WITH HEARTY APPROVAL.

PROJECT IS NOT A NEW ONE

Other Cities Have Similar Organizations Which Do Much to Make Their Cities Famous.

This evening it is hoped that the organization of the Boom Janesville Association will be perfected, a constitution and by-laws adopted, a board of directors and officers selected and the real work of booming Janesville for all it is worth formally begun. Like the previous meeting the session tonight will be held in the office of the New Gas Light company. As soon as the association is incorporated the real work of setting Janesville before the public of the country in its true light will be begun. Already there are several propositions of industries seeking locations awaiting the attention of the new secretary and board of directors to decide upon. Aside from the board of directors which will include the officers it is probable that the advisory board of ten will also be chosen to act in conjunction with the working board.

The Benefits
The benefits to be derived from a city or town advertising its advantages as a location for the establishment of manufacturing concerns employing small or large numbers of working people cannot be overestimated. If a merchant can sell his goods by advertising, and of course he can, there is no reason why a city or town or even a wilderness cannot attract people and factories to it by a judicious advertising of its special advantages. Many cities throughout the country are now engaged in advertising their peculiar advantages by means of books, pamphlets and circulars and even by newspaper advertising.

Will Spend Money
The business men of Fort Wayne, Ind., are following this plan with remarkable success. Recognizing that they have a splendid city, they propose to spend some money placing the fact before others, using such suitable mediums as will lead to the results desired.

In the South
In Dallas, Tex., a club has been organized to use its efforts to increase the population to 150,000. This organization has 300,000 pieces of advertising matter concerning Dallas ready for distribution. It also proposes to use space in Texas newspapers to tell about the city's advantages as a business and residence center. In Rostern, Canada, the town council has appropriated \$500 to assist a local organization in booming the town.

Western Enterprise
At 707 Eighteenth street, Denver, is an association called the Colorado Free Bureau, formed for the purpose of telling the world about the great state of Colorado and its daily advancement. This bureau sends out printed matter once a week to leading newspapers presenting interesting occurrences connected with the state's growth. The city of Williamsport, Pa., has one of the most energetic publicity bureaus in the country and so has Niagara Falls, N. Y.

Bright Spot
Milwaukee has a similar organization which has done wonderful things for that city. Madison has its Forty Thousand club and the marked growth of the Capitol city in the past ten years has been wonderful. Madison is growing and booming. Beloit is growing and booming ahead. Janesville will grow and boom ahead. Hot Springs, Arkansas, with nothing to offer but high-priced hotels, donkey rides and hot water has a press bureau that keeps this Monte Carlo of America before the public year in and year out.

Milinery Store Removes
Kennedy Sisters have removed their millinery establishment from the Myers block to No. 38 South Main street. This business was established twelve years ago and these young women having lived in Janesville all their lives and having many friends the business has prospered. They display good taste both in the selection of materials and in the creation of hats and bonnets particularly suited to the various needs of their patrons and for this and other reasons they have drawn about them a good class of patronage and plenty of it.

PRETTY LAWN FETE

Given by Little Hostess in Honor of Visiting Guests.
At her home, 128 Pearl street, last evening, Miss Abbie Kendall entertained charmingly in honor of Ruth Wentworth and Iva May Sharpe of Belvidere, who are her guests. The party was in the nature of a lawn fete and that the children enjoyed every moment was proven by their gay chatter and happy laughter. The spacious porch and lawn hung with Chinese lanterns, the tables sprinkled about from which dainty refreshments were served, and the children ditting to and fro, certainly did present a pleasing sight. Those who enjoyed Miss Kendall's hospitality were the Misses Ruth Wentworth, Iva Sharpe, Dorothy Wilcox, Grace Wilson, Jennie Dower, Mae Granger, Hazel Welch and Masters Francis Green, Glen Chase, Fred Cummings, Charles Manning, Alan Dunwiddie, Kenneth Catchpole.

PAINT THE MAIL BOXES GREEN

This Is the Order That Has Been Issued From Washington Recently.

Mail boxes are to be green. All letter boxes, mail-package boxes and the posts supporting both classes of boxes will be painted that hue. The paint will be sent in bulk from Washington and applied by painters selected by the local postmasters. This is in accordance with the general scheme of the postoffice department to change the color of mail boxes all over the country from aluminum to green as fast as they need repainting. The aluminum paint has been unsatisfactory. It was selected on the theory that it would prevent the boxes from rusting, but it has failed to do so. A committee was appointed to select a new paint. After going into the subject thoroughly and consulting officers of the navy as to the best paint in use on transports and war vessels the committee unanimously selected green.

LAWN PARTY FOR ROYAL NEIGHBORS

Was Given at the Home of Warren Haskins on the River Road Last Evening.

At the home of Warren Haskins, located on the river road about a mile north of this city, forty members of Crystal Camp of the Royal Neighbors enjoyed a delightful afternoon and evening yesterday. Games were played and a tempting luncheon served on a lawn illuminated with Chinese lanterns. Carriages took the merry party to the scene of the festivities and brought them home late in the evening.

Will Picnic at Ho-No-Ne-Gah Park

The annual emancipation celebration, which will be held at Ho-no-ne-gah park August 4, is growing more popular every year, caused by the intellectual progress of the American negro. Mr. Wilson O. Tyler of Indiana, who has been secured as the orator of the day, is among the most able speakers of his race and has made the negro question his life study. He is a graduate of Indiana State University, and received the laurels of that school in 1901. This celebration has for the last two years been under the auspices of the Colored Odd Fellows of Beloit. This year the good people of Janesville and surrounding towns are asked to patronize it because it is to be under the auspices of the African M. E. church of Beloit, a mission of which has recently been established in Janesville.

Charles Stoller
Funeral services over the remains of the late Charles Stoller were held this afternoon at two o'clock from the family residence at 30 Milwaukee avenue. Rev. J. H. Tippet officiating. The floral offerings were many and very beautiful. The pallbearers were S. C. Burnham, James Lamb, Henry F. Nott, George Yahn, Charles Carr and Myron Green. On account of the inability of M. C. Stoller, a son of the deceased, to reach here before this evening, the remains were not interred this afternoon, being held until tomorrow, when they will be conveyed to Emerald Grove.

Miss Susan Wells Parker
All that is mortal of the late Susan Wells Parker was tenderly laid in the last resting place in Oak Hill cemetery this afternoon. The funeral was held from her home on Prospect avenue at half-past three o'clock. Rev. Donison officiating. Song services were rendered by Mrs. Fannie Clark, Mrs. C. F. Yates, Cove Van Kirk and George Parish. The pallbearers were Dr. Q. O. Sutherland, Will S. Jeffris, William Bladen, F. Herman Buchholz, Halvor L. Skavlem and Fred Hutchingson.

WAS LAUGHING AND SWALLOWED BIG PIN

Mrs. J. D. Barlass of Bradford, Victim of Accident Which Might Have Resulted Seriously.

Mrs. J. D. Barlass of the town of Bradford had a narrow escape through the swallowing of a pin which lodged in her throat. Mrs. Barlass had a mouthful of pins when an amusing incident occurred and she was compelled to laugh. In laughing one of the pins slipped down her throat and lodged in the windpipe. So intense was her suffering she was taken to Emerald Grove to a physician. He was unable to relieve the suffering or dislodge the pin and she was brought into Janesville yesterday, when Dr. Edden succeeded in relieving her and taking the pin from the throat.

The Little Beggar.
Zurly hair, big eyes of gray,
"Gimme a penny!"
Always stopped his play to say:
"Gimme a penny!"
Passed his home to-day, and he
Never said a word to me,
But the white craps on the door
Seemed to rustle near and w'er,
"Gimme a penny!"

CIGAR TALKS.

How Can Smith Drug Co. Sell as Good a Cigar as the Chico for 5c.

"You want me to talk about cigars?" said Mr. Smith of Smith Drug Co. to a Gazette reporter.

"I think the better way is to let our cigars talk for themselves," he continued. "There is one cigar in our case, the Wadsworth Bros' Chico, which is doing a lot of talking, even shouting. I consider myself fortunate in getting the agency for it, as it is in reality equal to any 10c cigar, and it costs only 5c."

"You see we buy it direct from the maker, and the middleman does not get any profit. At any rate, it is becoming the best seller in our case, and people who heretofore would have nothing but a 10c or even 15c cigar, ask for a Chico and say they like it. Better try one yourself and see how good it is."

CATARRH

A UNIVERSAL DISEASE

Catarrh usually begins with a cold in the head, but does not stop there. The mucous membrane all become inflamed and secrete a filthy, unhealthy matter which is absorbed by the blood and distributed to all parts of the body. The patient is then continually hacking and spitting, the nose is stopped up, the ears have a ringing or buzzing noise, the throat becomes sore, and as the unhealthy matter more thoroughly saturates the blood a general feeling of despondency takes possession of the system.

I had Catarrh for about fifteen years and no matter how I treated it, it would not go. I then began to use S. S. S. and could see a little improvement from the first bottle, and after taking it a short while was cured. This was six years ago, and I am as well today as any man. I think Catarrh is a blood disease, and know there is nothing on earth better for it than S. S. S. I do not believe there is more of S. S. S. than I do.

Local applications cannot cure Catarrh, because they do not reach the seat of the trouble. They relieve the inflammation and temporarily allay the disease, but as soon as they are left off the trouble returns. The only way to cure Catarrh is to treat it through the blood. S. S. S. soon clears the blood of all Catarrhal matter and purges it of all irritating poisons, checks further progress of the trouble and completely cures the disease. S. S. S. keeps the blood in perfect order so that it can eliminate from the system all waste matter that will produce Catarrh.

Nothing equals this great vegetable remedy in the cure of this disease. Write for our book and any medical advice you wish. We make no charge for either.

KISSES TO HARVESTERS

Kansas Girl's Scheme For Saving Her Father's Crops.
HUGS ALSO AS AN INDUCEMENT
Farmer's Daughter Gave Them to Best Men Who Got Wheat in Before Rain—College Miss Entered in Lists Had—Pledge Miss Sauter's Admirer on Next Farm's Beaten, but Fainted at Crucial Moment.

Although Saline county, in Kansas, has been drenched with rain and many farmers are mourning for their ruined wheat crops, the yield belonging to S. H. Huston is safely stacked; all because his pretty daughter Mabel offered kisses and hugs to the first three men to do the heaviest work just before the heavy rains set in, says a Topeka (Kan.) dispatch.
At no time for years have men been so hard to get to work in the wheat fields of central Kansas as this year. College boys have tried it, and most of them have stuck to the task, but there are few of them to be had, and the farmers have been obliged to get along with what hands they could pick up.
The greater part of the Huston wheat was unstacked, and the farmer saw the loss of a crop worth \$6,000 staring him in the face when the government reports came that continuous and heavy rain was expected. The loss of his crops meant financial ruin to Huston, and both he and his daughter, who is eighteen years old, took to horseback and rode far and near, gathering up men and offering double wages for any that would go to their farms. But hands were scarce, and the farmers were offering high prices. Things looked as gloomy as the sky above when the hands started for the fields the other morning.
Unknown to her father Mabel, who is as pretty a Kansas girl as ever rode a mustang, told the servant she would carry butter milk to the fields that morning and keep on filling the men up with the grateful drink until every head of wheat was shocked. So she appeared in the fields with gallons upon gallons of the cool drink, and after every man had his fill the girl called them around her.
"Boys," she said, blushing to the tips of her pretty ears, "daddy's wheat must be saved before the rain comes or I won't be able to go back to school this fall, and you all know how badly I want to have just one season more of preparation for college so I won't be behind those bright college girls."
"The best I am going to offer a prize for the best workers and it's a prize that no man has won yet, kisses and hugs for the best men here. To the man who stacks the most wheat today I will give three kisses and a hug—real old fashioned Kansas girl's hug. To the man who is second I shall give two kisses, and the third man shall have a real hard hug. So please save daddy's wheat."
Never was there such a harvesting in all Kansas as that of the Huston wheat. Every man worked, not as if he were for his own, but as if he belonged to Mabel and her college career depended on it, as it really did. The hands to a man refused most gallantly to stop work even for dinner, and for hours the contest seemed so even that any one of a dozen husky fellows might have been the winner. Toward evening it was noticed that three men were leading all the rest, and when Miss Mabel brought their progress she grew plainer and plainer and prettier and prettier. Finally the contest was seen to be almost a tie between Fred Norton, the brash son of a neighbor, and two young college men who had left their universities earlier than usual for the health giving work in the fields.
Besides the test of brawn it began to be felt that there was another reason for the determined rivalry of the two pale eastern students, who had overdone athletics, a little, and the boy from the Norton farm, who had deserted his father's work to join the lists for Mabel's caresses.
The way those college youths bustled that wheat was a caution. No one would have believed it had he not seen one breast the tape in the record breaking relay race and the other lift his shoulders out of the water on the long four miles. Finally one fell back a little, and it was between the other and young Norton, who plainly was working himself to death for love of the pretty Mabel. It was nearing the quitting hour, and the college man was ahead and looking as pale and undisturbed as when the race was begun, while Mabel sympathetically watched only the heroic struggles of Norton.
Maybe there was a tear in her eye, and maybe there wasn't. Anyway the former varsity athlete toppled over in a faint, and while they were pouring water over him young Norton struggled in a winner by two sticks.
There were tears in Mabel's eyes as she paid the winners and told them they had saved her father and her too. With Mr. Huston as judge she bestowed the kisses and hugs, the college man miraculously reviving to get his share before the cheering bands. If he got an extra kiss Mabel didn't care nor did he. Nor was Norton angry, but nary a wink was there in the eastern man's eye.

Challenger Tells How Scientific Diet Will Mean Everlasting Life.
Everlasting life will come to man in body as well as in soul as soon as physiologists determine a scientific diet for him, says a Chicago dispatch.

Such, in condensed form, is the opinion of Professor Albert P. Matthews of the University of Chicago, who is devoting his work to the creation of artificial life along the lines laid down by his former colleague, Jacques Loeb.
In an article on "What Is Death?" in the July number of The World Today Professor Matthews says:
"What happens in the body at death? In the first place, there is no definite moment of death. We are all gradually dying for years. The moment which is ordinarily ascribed to death is when breathing stops, but this is purely arbitrary and the survival of an old belief that life was drawn in to the breath and the soul passed out with the breath."
All causes of natural death, he urges, will be removed by the new system of dietetics now being worked out, where, in the exact chemical needs of the body will be supplied in due proportions.

Ancedote of New Secretary of Navy.
A writer in Harper's Weekly relates an interesting anecdote of Charles J. Bonaparte, the new secretary of the navy. It appears that during Mr. Bonaparte's connection with the Baltimore Reform league it was decided to investigate the conduct of a prominent federal official. Friends of the crooked official learned this and resolved to "pack" the council so that the report might be voted down. Mr. Bonaparte listened attentively to the arguments against the report and then rose to give his own views, bitterly attacking the official, and urging that the changes be immediately accepted. He said, however, that his words would have little effect on that portion of his audience which sided with the accused man, so when he had finished his discourse, he began over again, repeating his speech, word for word, pause for pause, gesture for gesture—not once, but a dozen times—until toward morning the friends of the accused official were fast asleep. Mr. Bonaparte and his associates then approved and adopted the report.

Relics of the Iron Virginity.
Three pieces of iron sheathing and one gun from the famous Confederate ironclad Virginia recently lay on the Roanoke pier at Norfolk, Va., having been dug up off Lambert's point by a mud machine, says the Norfolk Landmark. The old smoothbore and sheathing, which is several inches thick, are now the property of a junk dealer. The mud machine which is engaged in deepening the harbor scooped up the relics, which are famous. The iron sheathing which it was explained by a marine mud, covered the slanting sides of the famous vessel, are about fifteen feet in length. The gun is about three feet in length, and the water has apparently made no impression on the weapon.

Naming the Farm.
Why don't more of the farmers name their farms? It ought to be done, says the Farmer and Gardener. The lettering is done in cement and laid in the sod on a slope in the yard. It shows up beautifully even on moonlight nights. Something similar could also be done in flower beds with little work.

HOW TOGO WON.

Incidents That Contributed to His Victory in the Sea of Japan.
While the outcome of the naval battle in the sea of Japan was quickly made known by cable, the curiosity of naval experts as to the means by which a victory so unexpectedly decisive was brought about remained for weeks unsatisfied, says Harper's Weekly. Not until June 19 was some light upon the details of the engagement obtained through Tokyo newspapers, copies of which then reached Victoria, B. C.

It appears that soon after the firing began many of the Russian seamen and gunners became panic stricken. Two gun crews on the Dimitri Donoski mutinied when the presence of the enemy was suspected, and their officers could only keep them at work by threatening to shoot them down.
The assumption that a battleship cannot be sunk by gun fire was exploded. It was undisputed that the Oslabla and Souveroff were sunk by Japanese armor plates of inferior quality, but another plausible explanation is that these vessels owed their fate to the heavy sea running at the time. The Japanese had long been practiced in firing under such conditions, and when the Russian battleships were rolling and exposing unprotected parts Togo's gunners scored many hits.

TWO OPEN LETTERS

IMPORTANT TO MARRIED WOMEN
Mrs. Mary Dimmick of Washington tells how Lydia E. Pinkham's Vegetable Compound Made Her Well.

It is with great pleasure we publish the following letters, as they convincingly prove the claim we have so many times made in our columns that Mrs. Pinkham, of Lynn, Mass., is fully qualified to give helpful advice to sick women. Read Mrs. Dimmick's letters.

Dear Mrs. Pinkham:—
"I have been a sufferer for the past eight years with a trouble which first originated from painful menstruation—the pains were excruciating, with inflammation and ulceration of the womb. The doctor says I must have an operation or an operation if I do not want to submit to it. Please help me."—Mrs. Mary Dimmick, Washington, D. C.
Her second letter:—
Dear Mrs. Pinkham:—
"You will remember my condition when I last wrote you, and that the doctor said I must have an operation or I could not live. I received your kind letter and followed your advice very carefully and am now entirely well. As my case was so serious it seems a miracle that I am cured. I know that I owe not only my health but my life to Lydia E. Pinkham's Vegetable Compound and to your advice. I can walk miles without an ache or a pain, and I wish every suffering woman would read this letter and realize what you can do for them."—Mrs. Mary Dimmick, 50th and East Capitol Streets, Washington, D. C.

How easy it was for Mrs. Dimmick to write to Mrs. Pinkham at Lynn, Mass., and how little it cost her—a two-cent stamp. Yet how valuable was the reply! As Mrs. Dimmick says—it saved her life. Mrs. Pinkham has on file thousands of just such letters as the above, and offers ailing women helpful advice.

Warned Against Tea Drinking.
A youth at Cambridge University was in 1717 mildly reconverted with by his uncle on account of his chandler's bill being too high "by reason of ye foolish custom you have got of drinking and treating with Tea wch is not only very chargeable but is ye occasion of misspending a great deal of time. I hope therefore you will leave it off."

Origin of Term "Graft."
Municipal corruption of various kinds is now generally indicated by the word "graft." The origin of this term is obscure, but it is believed to have arisen from dishonesty in lower spheres. Bartlett's "Dictionary of Americanisms" defines "grafting" as pocket-picking. Hotten's "Slang Dictionary" suggested that the slang use of "graft" might be a corruption of "craft" or a generalization from the special work of gardening.

Tendency of Fish to Decompose.
Fish, because of its tendency rapidly to decompose, holds a peculiar position among foods. In England it is the subject of a special act of Parliament. So long ago as 1698 men knew the evil consequences resulting from eating mackerel of uncertain post-mortem age. So they passed an act providing that except during the hours of divine service this fish could be sold on Sunday. That act has never been repealed.

JUSTICE HOOKER STAYS ON THE SUPREME BENCH

Vote in the New York Assembly Falls Short of the Necessary Two-Thirds to Depose.

Albany, N. Y., July 21.—The assembly Thursday by a vote of 75 to 67 saved Justice Warren B. Hooker from removal from the supreme bench on charges concerning his connection with appointments in the Fredonia postoffice and with the "Wirtner judgment," affecting property of the city of Dunkirk, adjoining the Dunkirk postoffice building, owned jointly by him and State Tax Commissioner Lester P. Seams. Forty-one Republicans and thirty-five Democrats voted for removal, fifty-eight Republicans and nine Democrats against removal.

The final vote was taken upon a formal resolution providing for Justice Hooker's removal. Under the constitution it would have required 100 votes to pass the resolution. The action of the assembly on the removal resolution obviated the necessity of a vote in the senate.

The question of the removal from office of Justice Hooker came in final form before the legislature when Chairman Fish of the assembly committee on judiciary presented a concurrent resolution calling for the removal of the justice on the ground that he "has been willfully guilty of corrupt, unlawful and immoral acts which have tended to bring and have brought the said office of justice of the supreme court and the administration of justice into contempt, and which show a personal unfitness on the part of said Warren B. Hooker to hold and occupy the office of justice of the supreme court."

The vote upon the resolution was announced to be the only action necessary for the assembly. Each member was allowed two minutes in which to explain his vote and so many members availed themselves of the privilege that the vote was not completed until mid-afternoon.

Pearls in Clam Shells.

About one mussel in a thousand yields a pearl worth \$100. The average pearl is worth about \$6. But the daily finds runs from \$2 to \$20. Although a farmer may never find a valuable pearl in his clam bed, he may find enough common ones to yield him a comfortable sum aside from the money received for the shells.

Different Now.

The years seemed very long to me, and life was but a bore; all sights were tiresome to see, and I had the blues galore. All jokes were ancient here below, good songs were never sung; but that, alas! was years ago—when I was very young.

SPRING RIVER EXPANDS AFTER LONG RAINFALL

Rises Suddenly From a Narrow Stream to a Raging Torrent Fully a Mile in Width.

Carthage, Mo., July 21.—Following twenty-two hours of continuous rainfall Spring river is on the greatest rampage in the history of Jasper county. Three teamsters, Calvin Rodner and two whose names have not been learned, are reported drowned and thousands of acres of wheat and corn flooded. Much live stock is reported drowned.

The river rose suddenly Tuesday from a quiet narrow stream to a roaring torrent a mile wide. Half a mile from the river the Frisco railroad station stands in 6 feet of water. One train attempted to ford the flood, but was stalled by extinguishment of the engine's fire. Six westbound trains are stalled here.

The McDaniels Milling company, standing near the Frisco depot, is flooded, as well as six other large concerns, among them being the Carthage Light and Power company.

One lime warehouse took fire and burned to the water's edge. Kendrick town, the stone quarry settlement, is under water. Galesburg and Georgia City are likewise sufferers.

Against the Newest Methods.

The greatest boon that medicine has ever conferred upon humanity have been met at first with the most violent opposition, amounting in some cases almost to persecution. When Pare introduced the ligature he was greeted with a perfect storm of ridicule and abuse, and finally, in self-defense had to show that the idea was not strictly original, but might be traced in the writings of Hippocrates.

Hardest Animal to Handle.

The elephant is the most treacherous, moody, changeable animal in a menagerie. They are twice as dangerous as tigers, lions, or bears. The men who handle the big cats in their cages are forced to watch closely and carefully while they are in the cages with them, but that lasts only a short time.

Parsees Bar Converts.

In recent years several wealthy Parsees have married European wives and brought them into the Parsee fold. Now the Parsees have decided that they will admit no more converts. Even the children of the Parsees married to Christian mates will not be recognized as Parsees.

Divorce Averages.

In countries where divorce laws are in force Germany shows 165, France, 180; Roumania, 204; Switzerland, 432; and the United States, 612 divorces for every 10,000 marriages.

GROWTH OF ARIZONA CARP

One That Grew from Minnow to Eight and One-Half Pounds in a Year.

About a year ago a little son of Mr. and Mrs. E. F. Van Kirk picked up a little fish on the desert north of town, says the Arizona Republican. That is, it was formerly a desert, but has been reclaimed, and the fish probably found his way into the field through an irrigation canal. Anyhow he was a lively youngster of the carp variety, and the boy was very proud of him.

The fish was thrown into a pond in a near-by pasture and no more attention was paid to the fact except by the child, who during the year has caught sight of the fish occasionally while he was playing near the pond.

The pond has been gradually drying up since the shortage of water in the canals, and it got so low the fish was seen floundering around and finally captured.

From a minnow it had grown into a year to 8½ pounds, and there was a fish carnival at the Van Kirk ranch. In justice to the reader it should be stated that these facts are unimpeachable, as they are furnished by Mrs. Van Kirk and not by her husband, who might be less accurate in the matter of weight, being engaged in the cattle business.

Test for Water.

A good test for water that can easily be tried is to fill a pint bottle two-thirds with water; add half a tablespoonful of granulated sugar and cover it with a glass stopper or a new cork and place it in the light of a warm room. If the water looks cloudy or milky within forty-eight hours it is impure, but if clear it can be used without any fear of its causing disease.

Dahomy Sweet Potato.

A new variety of sweet potato having great economic value has been acclimated in the experimental gardens of Bordeaux. It is a native of Dahomy and very prolific. The leaves of the plant can be used as a substitute for spinach, and the tubers, containing a higher percentage of sugar than beets, are fine flavored and make exceptionally good food for live stock.

His Excuse.

Mr. Hope Spriggins Jones says of poetry: "I don't write it for a living; I just write it 'cause the rest of the world seems to be takin' it, and I might as well have a whirl at it as anybody else!"—Atlanta Constitution.

Benefit of Good Manners.

Good manners pay even if they do not make friends, because we cannot try to make others happy, to radiate sunshine, without feeling better and purer ourselves.—Success.
